

RESOURCES FOR PEDESTRIAN SAFETY

- Use [My State Info](#) to find the information you need to know in your state about walking and biking safety under our new Pedestrian and Bike Safety Section.
- [National Highway Traffic Safety Administration \(NHTSA\) - Walkability Checklist](#) is a checklist to rate your neighborhood's walkability.
- [Stepping Out as an Older Adult](#) helps you step out to exercise, run errands, or both. Make sure you can maintain your safety while enjoying the health benefits of walking.
- [NHTSA Pedestrian Safety Page](#) raises awareness of the dangers to pedestrians and provides tips to keep pedestrians safe.
- [Data Visualization Tool](#) from the National Center of Statistical Analysis presents data on vulnerable road users involved in fatal motor vehicle traffic crashes. These visualizations include dashboards with information on fatal motor vehicle traffic crashes and fatalities based on data from NHTSA's Fatality Analysis Reporting System (FARS).
- [Traffic Safety Fact Sheets](#) are released annually and contain information on fatal motor vehicle traffic crashes based on data selected by NHTSA to highlight the latest developments and trend data. The most recent year of finalized data on Pedestrians is for 2020.
- [National Pedestrian Safety Month Resource Guide](#): NHTSA developed a resource guide to help stakeholders address pedestrian safety. This tool offers ways to get involved through traditional media and online media.
- [Transportation Safety Institute \(TSI\)](#): TSI offers free courses designed for law enforcement, program managers and stakeholders with an interest in reducing pedestrian crashes and focusing on elements of pedestrian safety. (Note: While the courses are free, you will need to [register](#) to sign up and then select the training from the NHTSA training topics.)
